

Life begins outdoors

The 2023 Collection

*Comfort, style and safety,
developed by parents for parents.*

Best quality & safety

Our products are regularly tested by an independent, certified institute according to the EN 1888 standard and the EN 71 toy standard.

Sporting use

The Sport+ test developed in cooperation with TÜV Austria confirms this: Our prams and strollers provide more safety during sports.

First-class materials

All materials used are regularly tested for harmful substances, tested according to EN standards and certified by TÜV.

Consistent environmental protection

The responsible treatment of nature is essential for us. That is why we are committed to environmental protection and support various organisations.

Thanks to 25 years of experience and intensive testing as well as constant optimisation and new development of our products, we can offer you the perfect buggy or pram for every situation and every requirement. Both leisurely walkers and sporty active parents will certainly find what they are looking for in the **tfk** product range. Because our pushchairs are unbeatable when it comes to transporting your baby or child easily through the city, the park or in the forest over rough and smooth.

Committed to tradition!

Combi unit (carrycot & seat) with **rocker** adapter

The combi prams

with innovative combi unit
(carrycot & seat)

For all those who do not want to compromise.

The **ffk mono2** and **duo** are the result of decades of experience, developed and designed by parents for parents. The combi unit (carrycot & seat) transforms from a carrycot with comfort mattress, which is one of the largest on the market, to a comfortable seat, **with a new additional reclining position**. The versatile features, such as the steplessly adjustable backrest or the world's first usable footrest, allow you to use the **ffk mono2** and **duo** from birth until at least 36 months. In addition, you can choose between 12" air or air chamber tyres.

*Jogging, hiking, shopping -
maximum comfort and maximum variability in one model?*

Our manoeuvrable prams are reliable all-rounders for your parents' everyday life - so you can have more adventures off the road. With optional „non-flat“ tyres and patented folding mechanism for even easier and safer handling.

antiseptic

Our contribution for parents in special situations.

Thanks to the **GEFATEX®** hygienic protective covers developed for **clinical purposes**, we can also offer the **ffk mono2** for babies in critical living conditions. The special fabrics are **breathable yet liquid-tight**, suitable for allergy sufferers, **can be disinfected** and are PVC-free. They are also impermeable to **viruses and bacteria**. You can find the exact specifications on our homepage.

25 years Trends For Kids – 50 years in the service of parents

For a quarter of a century, TFK in Ergolding, Lower Bavaria, has been developing more than just „sporty“ products to make everyday life easier for parents with their children in the first years of life. The family-run company can proudly look back on over 50 years of experience in the baby industry. Inspired by inventiveness and passion, the third generation is waiting in the wings.

Original customisation options
– everything from one source

We offer you numerous useful accessories that extend the functionality of our strollers according to your wishes.

The **rocker** adapter, as a supplement to the combi unit (carrycot & seat) of the **fk mono2** or **duo**, ensures a comfortable rest at home. Simply place the carrycot on the **rocker** adapter and rock your baby gently to sleep.

Whether footmuff, group-0 adapter, multiboard or the also new summer support for the seat - all accessory options are developed by parents for parents.

You can find further extensive accessory options and spare parts for all our pushchairs, as well as your local specialist dealer, on the Internet at:

For us, as a family-run company, a responsible approach to nature and environmental protection is essential and a matter of course. Especially when you are one of the largest manufacturers of strollers in Europe. That's why tfk has always attached great importance to environmental protection. Among other things, we have been offsetting our entire annual CO2 emissions with PrimaKlima since 2012.

In addition to our animal sponsorships with a fascinating humpback whale named „Coral“ - which can store as much CO2 in its lifetime as 30,000 trees (source: whales.org) - and two flinkwallabies in Munich's Hellabrunn Zoo, we support selected partners and offers related to the topic of sports with strollers within the scope of our possibilities.

In the beautiful nature tfk is at home. That's why we shot for this catalog in the fascinating „Lüneburger Heide“, among other places: Vast landscapes, purple blooming heath, green forests and free-roaming heidschnucken impress on the more than 107,000 hectares between Hamburg, Bremen and Hanover. A dense network of biking and hiking trails leads through the multifaceted heath areas, touching explorers and peace seekers alike. Among them is the 223-kilometer Heidschnuckenweg, honored as one of the most beautiful hiking trails in Germany.

We take responsibility.
